SUBJECT: Disposition of Contaminated soil at Norfolk and Western - Old Walkertown,
(Barker Lot) Old Walkertown Road, Winston-Salem, Forsyth County, North
Carolina

Dear Mr. Roach:

While reviewing the tank closure report submitted for the subject location, the final disposition of the contaminated soil was not stated. The report states that the contaminated soil was removed from the tank pits and then stockpiled on site. This office requests information concerning the disposition of the contaminated soil. If the soil was treated thermally off site, a manifest is needed and if a permit was issued by the Division, then the permit number of the permit issued is required.

If you have any questions please do not hesitate contact me at the letterhead address and/or telephone number.

Sincerely,

Mitch Rose
